November 26, 2018

Dear Friends,

Have you, a loved one, or someone you care deeply about been impacted by a disability?

Meet Jorelle. Throughout her life, Jorelle was a dancer. She began dance lessons at the age of three. As she matured, she favored the flair, energy, and muscular strength of African Dance, performing frequently to live music. At 29, Jorelle suffered a brain injury during a car accident which she attributes to black ice. Through collaborative efforts from Living Resources' Acquired Brain Injury and Home Care programs, Jorelle continues to lead a fulfilling and independent life. She takes pleasure in attending art classes and is pictured with a book that she created in which she integrated photos of herself dancing and the history of art. Jorelle enjoys her group of friends at Living Resources and lives on her own with her cat, Houdini.

In one moment, your life can be changed forever ...

Since 1974, Living Resources' has delivered life-enhancing support and empowerment to individuals with disabilities through every stage of their lives. We work tirelessly to ensure that every individual that comes to us has a good life. Friends like YOU embrace our mission, become partners, and ensure that those impacted by a brain injury, like Jorelle, do not stop living a life of fulfillment.

Injuries change how we live but meaning and purpose should never be forgotten.

As a nonprofit organization, we face many challenges each day and your help is crucial to success. Please consider a generous gift that will allow us to provide the individuals we serve - like Jorelle - with a full life of purpose, comfort, and hope - regardless of disability or impairment.

We appreciate you and thank you for your kindness.

Warm regards,

Fredrick W. Erlich
